

# How to use Vango Fuel with Trangia Stove Systems

Including important safety information

## Safety Guidance- Please read before use

### Important safety information (Vango Gel Fuel)

1. DO NOT refill a lit or hot stove.
2. DO NOT refill stove with a 1 litre refill tin. Always use a Vango 200ml Gel Pouch.
3. Keep unused fuel at least 10 feet away from stove.
4. Flame can be hard to see. Always check for heat, bubbling and crackling noise of gel indicating it is alight.
5. Always read instructions on back of Vango packaging and in Trangia safety information.

### Important safety information (Vango Bio-ethanol Spirit Fuel)

1. DO NOT refill a lit or hot stove.
2. DO NOT refill stove with 5 litre. Always use a Trangia Safety bottle.
3. Keep unused fuel at least 10 feet away from stove.
4. Flame can be hard to see. Always check for heat.
5. Always read instructions on back of Vango packaging and in Trangia safety information.

# Using Vango Fuel Gel with the new Trangia Gel burner

1. Remove lid of burner and use Vango 200ml pouch to fill burner to 2/3 full  
(Replace pouch lid and store away from stove)

2. Place burner in lower windshield
3. Ignite and place upper windshield

4. To extinguish, place lid upside down over burner using Trangia Handle. Replace lid when stove is cool

5. Gel is water soluble and can be cleaned using warm water

## **WARNING!**

**Use 1 litre tin to refill 200ml pouch only. DO NOT use to refill stoves.**

# Using Vango Bio-ethanol Spirit with the Trangia Burner

1. Remove child safety cap from 750ml bottle

2. Squeeze bottle for controlled dispensing of fuel into Trangia spirit burner or screw directly into Trangia fuel bottle and squeeze (refer to bottle instructions)

3. Fill burner to 2/3 full and place in lower windshield. Replace child safety cap on bottle and store fuel away from stove. (follow Trangia safety instructions for burner use)

4. Ignite and place upper windshield

5. To extinguish, place simmer ring over burner using Trangia Handle. Replace burner lid when stove is cool

**WARNING!**

**NEVER** use a 5 litre container to refill a stove.
