

e-Learning Modules: Pre-requisites for attending MTF training Courses

The following chart shows the Modular Training Framework (MTF) courses that require e-learning modules to be completed prior to attending the course itself. All e-learning modules can be accessed from DofEtraining.org. Please note that other pre-requisites may apply; this document shows only the e-learning that must be completed in advance of a course.

Please also note: the e-induction or other e-learning modules may also be a pre-requisite for attending a non-MTF course run by a DofE Office (e.g. as part of an induction into a DofE role).
