

The Modular Training Framework

In order to support the adults who perform a variety of DofE delivery roles, the DofE has developed a comprehensive training programme. The Modular Training Framework (MTF) is a combination of e-learning modules, training courses and practical assessments.

e-induction

A free online learning programme, which gives a basic introduction to the DofE. Completing the e-induction is a pre-requisite for attending any MTF course.

Introduction to the DofE (IttDofE)

The IttDofE course acts as a general introduction to the DofE and to DofE delivery roles. It outlines the relevant information to support and run DofE programmes within a centre.

Award Verifier (AV)

The AV course equips Award Verifiers with the necessary DofE programme and practical knowledge to undertake the Award Verifier role.

- **e-learning module: Introduction to the Award Verifier e-learning.**

Expedition Assessor and Supervisor Training Course (EASTC)

The EASTC provides Expedition Supervisors and Assessors with an understanding of their role. It outlines the responsibilities of the Expedition Supervisor as the person responsible for the health and safety of an expedition team; and the Expedition Assessor as the person who confirms if a qualifying expedition meets the DofE's required 20 conditions.

The EASTC also outlines how these two roles work as a combined Supervisor/Assessor role for Bronze expeditions and the Expedition Assessor Accreditation Scheme.

- **e-learning module: Introduction to the Expedition Section and Roles e-learning.**

More information

A PDF information sheet on each course plus the learning outcomes can be downloaded from Dofe.org/training

Training courses are run throughout the year. To find out about upcoming courses in your area visit: Dofe.org/opportunity-finder
