

eDofE remote launch

Here are the resources you'll need to get started on eDofE:

- Find out your username and password from your Leader
- Log in via the eDofE app or online
- Once you've logged in for the first time, you'll receive your Welcome Pack in the post
- Decide which activities you want to do for each section (you can continue with activities you are already doing or start something new)
- Have a look at [#DofEwithadifference](#) for inspiration on activities you can do from home
- Choose an Assessor for each section
- Get going!
