in sectional
equipment

£26,680
in adult
training

£163,736
in Licence Fee
contributions

£104,758
in LO delivery
support

Hear from some Licensed Organisations about the impact of grant funding and the DofE Awards:

"The funding has impacted the DofE delivery greatly, it has enabled us to purchase items that can benefit the prisoners on the course and develop their skills in other ways learning life skills that they can take out into the community and utilise. Men engaging with the programme are enjoying the course and engaging with different opportunities that they have previously not engaged with. The funding has enabled us to invest in the programme more and increase the group sizes, instead of just being able to work with smaller numbers." **DofE Leader, Prison**

"The fund has helped to ensure young people classed as 'hard to reach', 'hard to place' and those with complex social, emotional mental and needs - also have the opportunity to access a programme that helps build

their confidence, improves their independent living skills and raises awareness about their local environment."

DofE Manager, Voluntary and Community Sector Organisation

"We have students in education that we categorically would have lost from the education system without DofE. It is stopping students entering organised criminal activity and substance misuse, giving children the hope of a career they actually want to do in the outdoors. To put it simply, we believe DofE is completely life changing and we will continue to improve our activities and scope to save more children from a challenging life ahead."

DofE Manager, Secondary School
